KEVIN PHILIPP KOCH

UX/UI & Product Designer | B2B Software · Design Systems · Enterprise UX

Kissing, Bavaria | 01520 2709081 | hello@kevinpkoch.com | kevinpkoch.com

PROFILE

UX/UI & Product Designer specializing in complex B2B software and scalable Figma design systems. Experienced in UX research, end-to-end product design, frontend technologies, and cross-functional product development.

CURRENT PRODUCT PROJECT

CaliHub – B2B Matching for Calibration Services

Co-initiator | UX/UI & Product Design (pre-incorporation phase) | Jan 2026 – Present | calihub.de

- Conceptualized and advanced a B2B matching MVP; designed user flows and provider matching.
- Spoke with companies at the InnoTrans 2026 trade fair in Berlin to validate calibration needs and identify potential pilot customers.
- Used AI agents to support product development; built automated E2E tests with Playwright and documented bugs and improvement opportunities in Azure DevOps.

PROFESSIONAL EXPERIENCE

UX/UI Designer

eeszy GmbH (spin-off from esz AG) | Feb 2025 – Dec 2025

- Delivered end-to-end UX/UI design for calibration and test equipment software; analyzed user requirements, designed workflows, and created wireframes, interactive prototypes, and UI specifications.
- Built a modular, accessibility-conscious Figma design system with components and style guides; employment reference cites approximately 70% faster feature development.
- Contributed to strategy and requirements in the core product planning team; collaborated closely with executive leadership, product management, software architecture, and engineering.

UX/UI Designer

esz AG calibration & metrology | Oct 2024 – Jan 2025

- Developed a design system, component library, and style guides for complex software interfaces, improving visual consistency.
- Designed an interactive order timeline with status indicators and made key user workflows more intuitive.
- Conducted scenario-based and think-aloud usability tests, resolved at least 12 usability issues, and iteratively implemented improvements.

IT Support Specialist with UX/UI Focus

esz AG calibration & metrology | Aug 2023 – Oct 2024

- Conducted 15 contextual user interviews and customer journey mapping for logistics and support processes; translated findings into improved navigation, user flows, and UI.
- Worked with engineering and operations teams to improve interfaces and validate processes; systematically analyzed user feedback.

UX/UI Designer & Frontend Developer

Confidential DeFi Project | Dec 2022 – Apr 2023

- Designed mobile-first UX/UI and a design system for a DeFi trading application; translated complex wallet and trading features into clear user flows.
- Implemented responsive frontend interfaces with Next.js, TypeScript, and Tailwind CSS.

EARLIER EXPERIENCE (SOME ROLES OVERLAPPED)

ALPENATEM | Co-founder, Deputy Managing Director & Head of Marketing | Oct 2015 – Sep 2019
GOLDENLAB Supplements | Managing Director | Feb 2013 – May 2018
